Suspect ID: 1
[Lead Sheet Report](#)

The suspect record in Recall-SVI is laid out in an easy to read format. All of the information is grouped together so that officers can easily find the data that they are looking for.

The sections are broken down by:

- Personal Data
- Physical Data
- Suspect Type
- Administration

Incident Type:

Use this window to select all the incident type for which the suspect has been arrested.

Note Links:

If a note is entered anywhere in the system that refers to this suspect, a direct link to that note will appear in this window. This includes other suspects, vehicles and officer's digital note books.

Vehicle Association:

If this suspect has ever been pulled over in a vehicle as the driver or a passenger a link to that vehicle will appear in this window.

Incident Report:

If there is an incident report entered in the system that includes this suspect, the report and some general information will appear here.

Tattoo Marks & Scars:

Images of tattoos and body marks can be uploaded here and tagged. The tagging feature allows for searching by body marks and tattoo.

Other Images:

Upload any other images related to the suspect.
